ELECTRICAL LOSS HEAVY.

Power Station Fire Puts Business at Standstill.

Candles and Lamps Illuminate San Francisco.

Planes in the Old Dominion Mine Controlled.

(BY THE ASSOCIATED PRESS.—A.M.)

SAN FRANCISCO, Feb. 22.—The first of this morning in the central station of the San Francisco Gas and Electric Company caused a loss estimated at \$100,000, besides crippling many commercial and manufacturing establishments, though not so seriously as would be the case were not this a holiday.

ORIGIN OF FIRE.

The origin of the fire, which completely gutted the building in which it was located, has not been positively determined. Workmen who were in the building at the time say that there was a flash, followed by a sheet of flame, and in a few minutes the flames had taken hold of the building. It is still rumored that some of the dynamo was overcharged and exploded. Another theory is that the fire, which started in the battery storage room, spread either by means of a lead pipe or by means of a lead pipe used to connect the battery.

EXTENSIVE PERSONS HURT.

Among the persons hurt, only one, William, however, sustaining any serious injury. He was taken to a hospital, it is said, but he is recovering. The others of the gas and electric company, however, their loss will be \$100,000, but others place the loss at \$200,000. Six engines, valued at \$100,000 to \$150,000 each, were damaged, as also was the generating plant worth \$125,000.

SHIP'S ESCAPE MIRACLE.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Feb. 22.—[Exclusive Dispatch.] The Norwegian steamer Ragnar, coal laden from Seattle, arrived today with her supercargo of almost miraculous escape from destruction.

NUCLEAR EXPLOSION.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Feb. 22.—[Exclusive Dispatch.] The Nevada mine, owned by H. H. Parker of Sparks, had three miners, broken and injured, when a nuclear explosion occurred from a fault in the mine. The explosion was a small one, but it caused the mine to be closed for some time.

SLOPE BRIEFS.

No Developments in Poisoning Case.

STOCKTON, Feb. 22.—The investigation of the District Attorney's office in the mysterious poisoning case developed nothing today. Mrs. Barnett, who was brought back from Black Diamond, was under long examination, but nothing was developed that might point to her or to any one else in a criminal way. At the suggestion of Assistant District Attorney McNoble, the body of one of the children will be exhumed and the tissues examined for poison.

To Test Life Preservers.

SEATTLE, Feb. 22.—Acting under directions from Federal Commissioners Smith, Murray and Burwell, officers in the United States revenue service have been engaged during the past week in collecting life preservers from Puget Sound vessels, which are to be forwarded to Washington for a general test in regard to their buoyancy. Commissioner Murray today said that the majority of the preservers secured probably would be safe, as the buoyancy of the block-cock life preserver had been demonstrated.

Left to Play With Father's Rifle.

UKIAH, Feb. 22.—Arthur Wheeler, aged eleven, was shot and probably fatally wounded this afternoon by his brother, Harold Wheeler, aged 8. The boys, with a younger brother, had been left at home by their mother and had been playing with their father's forty-four rifle. The little fellow became angry, his brother states, and in his fit rage turned the gun on him and pulled the trigger, the bullet striking him in the left side.

MIZNER HOPED TO DO THINGS.

PLANNED A CAMPAIGN WOULD OUTSHINE CASTELLANE.

Rumor Still Affects New York That He and His Wife Are Not Reconciled.—"There is No Mrs. Mizner," Said a Voice Over the 'Phone.

Edith Crater-Samms is Glad.

CRATER-SAMMS IS GLAD.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Feb. 22.—[Exclusive Dispatch.] Young Mr. Mizner of California registered at the Hotel Astor today. His wife is at the Verkes Fifth-avenue house. It is still rumored that there is a misunderstanding between the two. Louis Oswald, executor of the Verkes estate, said today that no contest is expected over the testament. The following telephone conversation between a reporter and an occupant of the Verkes mansion was had today: "Is Mrs. Mizner in?" asked the reporter.

REACHING FOR PIPE LINES.

Mr. Rhinock of Kentucky
Wants Them Regulated.

Introduces Bill Which Has
Set Members Talking.

Features of Knox Measure,
Introduced in Senate.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Feb. 22.—[Exclusive Dispatch.] Perhaps the most remarkable measure that has been evolved from the present widespread agitation against railroads, particularly those carrying fuel products, is the bill introduced today by Representative Rhinock of Kentucky.

The measure provides that pipe lines through which oil or other liquids are conveyed between points in different States or Territories shall be considered common carriers and subject to the provisions of law governing interstate commerce. This last-mentioned part of the bill is pronounced illegal and unconstitutional, for it is pointed out that Congress would have no right to regulate the same State or Territory to be common carriers and subject to provisions of law governing interstate commerce.

Mr. Rhinock: No far, the bill would remedy existing evils in the oil business. But the bill goes further. It declares pipe lines through which oil or other liquids are conveyed between points in different States or Territories to be common carriers and subject to provisions of law governing interstate commerce. This last-mentioned part of the bill is pronounced illegal and unconstitutional, for it is pointed out that Congress would have no right to regulate the same State or Territory to be common carriers and subject to provisions of law governing interstate commerce.

KNOX'S RATE BILL.
FEATURES OF THE MEASURE.
(BY THE ASSOCIATED PRESS—A.M.)
WASHINGTON, Feb. 22.—Senator Knox today introduced his Interstate Commerce Bill. It broadens the House bill, and contains a provision for review by the courts of the action of the Interstate Commerce Commission. Provision is made in the bill empowering the committee to establish through rates to be paid by railroads, and to provide for the payment of rates by railroads through routes are not maintained by the railroads complained of. Where parties to a joint rate fail to agree as to the apportionment of the commission is given the power to make the division between carriers.

RELATES TO ALL.
The bill provides that all acts of Congress and the provisions of this bill relating to interstate commerce shall extend to all common carriers engaged in carrying to which the relative power of Congress extends under the action of the United States, by transportation of the persons or the property wholly by railroad and partly by water, when both are used for a continuous carriage or shipment. Said provisions shall also extend to all the facilities and instrumentalities connected with the transportation of persons or property by railroads, whether owned or operated by the Government or not.

PLACING OF CHARGES.
It provides that all charges of whatever nature shall be just and reasonable. When a rate is unreasonable, the committee shall order it reduced, and when reduced, such reduced rate shall be the maximum to be observed by the carrier, and when the committee shall order practice to be changed, it shall be observed by the carrier.

THE REVIEW PROVISION.
The review provision is as follows: "Section 5. That the order of the commission, except order for the payment of money, shall take effect within such reasonable time as shall be prescribed by the commission, and shall continue for such period of time, not exceeding two years, as shall be prescribed in the order of the commission, unless sooner set aside by the commission, or suspended or set aside by order of a court in a suit to test the lawfulness of said order; but a carrier, person or corporation party to the proceedings affected by the order of the commission as to the rate or practice covered by the decision or by its prescribing a different rate or practice and alleging either or both to be a violation of its or its rights may institute proceedings against the commission and the Interstate Commerce Commission in the Circuit Court of the United States for the district in which any portion of the carrier or carriers that were parties to the complaint may be located, sitting at the time of the proceedings, and may cause the parties to have such questions determined, but in no other way shall the lawfulness of such order be questioned, and in all such proceedings the court shall have power to make orders to secure the appearance of parties from any part of the United States, and the existing laws relative to the conduct of the proceedings under the acts to regulate commerce shall be applicable.

"Provided, however, that no order of the commission reducing a rate shall be set aside or suspended by an interlocking decree of the court without retaining a deposit of excess charge or sufficient bond to secure to the parties entitled thereto the repayment. If the commission's order is sustained, of all moneys received by the carrier in excess of the rate fixed by the commission, and the court shall determine in such interlocking decree what practices shall be pursued by the carrier, pending the litigation in order to effect this right of payment certain and effective."

Another section, relating to appeals, follows: "Section 9. That in all proceedings arising under this act, in which the United States or the Interstate Commerce Commission is a party, an appeal from the final decree of the Circuit Court shall lie only to the Supreme Court, and must be taken within thirty days from the entry thereof. No appeal shall operate as a stay or supersedeas of the decree appealed from."

NATIONAL DIVORCE CONGRESS.
COMMITTEE RECOMMENDATIONS.
(BY THE ASSOCIATED PRESS—A.M.)
WASHINGTON, Feb. 22.—The National Divorce Congress today adopted the following additional paragraph reported by the Committee on Resolutions: "A decree should not be granted unless the cause is shown by after proof as to permit the marriage of either party should not become operative until the lapse of a reasonable time after hearing or trial upon the merits of the cause."

The Wisconsin, Illinois and California rule of one year is recommended; also that in no case should the child-

born during coverture be bastardized. The Committee on Resolutions was directed to make a bill embodying the principles laid down in the resolutions with a view to securing action by the State Legislatures which will crystallize it into law.

FIFTY-NINTH CONGRESS.

REGULAR SESSION.
(BY THE ASSOCIATED PRESS—A.M.)
WASHINGTON, Feb. 22.—SENATE. The first hour of the Senate today was devoted to George Washington. In his opening prayer, Chaplain Paley dwelt upon the opportunity of commemorating every memory of the savior of his country. The prayer was followed by the reading of Washington's farewell address by Mr. McCreary of Kentucky.

PHILIPPINE ITEMS.
The Senate passed the bill authorizing the purchase of coal lands in the island of Batan, P. I.; also the bill amending the Philippine tariff act on textile fabrics and shingles.

GOVERNMENT OF INDIANS.
Mr. Clapp, from the Committee on Indian Affairs, reported the bill for the settlement of the affairs of the five civilized tribes of Indians. He said that the bill would expire a week from next Saturday, he would ask the Senate to take up the bill tomorrow. Immediate action was necessary, he said, to prevent the closing of the schools.

KNOX'S RATE BILL.
At this juncture a new railroad-rate bill was introduced by Mr. Knox. Its purpose was shown in its title.

In a brief statement, Mr. Knox said that he did not hope to have the Committee on Interstate Commerce to more than consider the bill as affording light on the question of control of the railroads. He said that the bill was introduced for the purpose of giving the Interstate Commerce Commission authority to fix rates on the railroads.

HAZING BILL PASSED.
The remainder of the day was devoted to listening to the reading of Washington's Farewell Address by Mr. McCreary and considering the Hazing Bill, which was passed just before adjournment.

The bill gives authority to the Secretary of the Navy to dismiss at any time a midshipman whose presence he considers for any cause contrary to the best interests of the service, and by accepting the bill has the right to demand a court inquiry. It repeals the existing law requiring the dismissal of midshipmen found guilty of having given authority for court-martial for having under certain conditions, and authorizes graduation sentences under the acts of June 24, 1874, and March 3, 1879, requires all instructors and officers at the Naval Academy to report offenders to the superintendent, and defines hazing as the unauthorized commission of authority by one midshipman over another.

SENATE ADJOURNS TONIGHT.
HOUSE PROCEEDINGS.
(BY THE ASSOCIATED PRESS—A.M.)
WASHINGTON, Feb. 22.—HOUSE. The name of George Washington was extolled by the blind chaplain of the House in his invocation at the opening of the session today. Immediately Mr. William H. Taft, who had endeavored to get an adjournment in the holiday, the House refused to adjourn, 99 to 138.

BATTLE MOUNTAIN RESERVE.
A bill was passed referring from disapproval by the government of Battle Mountain, S. D. The mountain is made a part of the Battle Mountain Sanitarium Reserve. The mountain takes its name from being the ancient battleground between the Crow and the Sioux Indians.

URGENT DEFICIENCY BILL.
The conference upon the Urgent Deficiency Bill was agreed to.

A joint resolution was agreed to, allowing Alaska teachers and employees of the Bureau of Education to assign their salaries.

ARMY APPROPRIATION BILL.
The Army Appropriation Bill was then taken up.

The speeches took a wide range. First, the system of promoting and retiring army officers was attacked by Mr. Prince of Illinois, who elicited many comments from members in disapproval of the methods, for which he said the President and Senate were responsible, and which he said he had resulted in a retired list costing yearly \$3,700,000, consisting of officers, who, he said, were holding the flag with one hand, while the other was the treasury for money that had never been earned.

THE GREATER "ARMY."
Mr. Prince mentioned the fact that there were 500,000 persons under the direct control of the President, 300,000 under the civil service, 60,000 in the army, 40,000 in the navy and marine corps, 70,000 postmasters and 100,000 not classified. All estimates for appropriations on which Congress acts come from this great army of employees. It was two months before the President to make personal scrutiny of estimates.

Referring to the question of the retirement of officers and the abolition of the grade of lieutenant-general, Mr. Prince criticized the system by which he said the President and Senate were responsible, and which he said he had resulted in a retired list costing yearly \$3,700,000, consisting of officers, who, he said, were holding the flag with one hand, while the other was the treasury for money that had never been earned.

THE BRIGADIERS.
There had been sixty-two brigadiers.

PREPARING ITS DEFENSE.
OFFICIALS WORK IN DARK.
(BY DIRECT WIRE TO THE TIMES.)
PITTSBURGH, Feb. 22.—[Exclusive Dispatch.] The Pennsylvania Railroad is letting no grass grow under its heels in preparing its defense for any Federal or State suits that may be brought against it in the oil-rate matter. Traffic officers of the road, including

generals who served for the day in that rank, and were then retired, from January 1, 1902, to January 1, 1903. "And," he continued, "I am inclined to think the moving picture is going on today at the same rate."

"One day's service was giving unearned money to these officers," continued Mr. Prince. "All officers have to do is 'mark time,' knowing they will be retired in 'black rank.'"

"The gentleman, it seems to me, has shown a very outrageous abuse of power and privilege on the part of someone," said Mr. Lawrence of Massachusetts. "Who is it that makes the promotion of an officer?"

MR. GROSVENOR'S APPLAUSE.
When Mr. Grosvenor of Ohio took the floor he was greeted with prolonged applause from both sides of the House, it being understood as an expression of approval of his criticism of the promotion of an officer.

MISS McKENNA WEDDED.
THE PRESIDENT A GUEST.
(BY THE ASSOCIATED PRESS—A.M.)
WASHINGTON, Feb. 22.—The marriage of Miss Hildegard McKenna, second daughter of Associate Justice of the Supreme Court and Mrs. McKenna, to John Leggett Pulte of New York took place yesterday at the residence of her parents in Rhode Island avenue, and was witnessed by the President, Vice-President and Mrs. Fairbanks, members of the Supreme Court and other distinguished guests.

PERKINS-HIS BILL.
SLOAT AND THE FISHERIES.
(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Feb. 22.—[Exclusive Dispatch.] Senator Perkins today reported from the Library Committee his bill for a monument to Commodore John D. Sloat at Monterey, where he defeated the first American flag on the Pacific Coast. The report deals at length with the work of the Sloat Monument Association of California, and argues strongly for aiding that organization.

Senator Perkins also reported from the Fisheries Committee a bill aiding the private salmon fisheries of Alaska. Something must be done, he report says, to prevent the extermination of the salmon. The bill provides for the establishment of a commission to investigate the salmon fisheries, and to report to the Secretary of the Interior.

WASHINGTON BRIEFS.
Selling Price of Rails.
WASHINGTON, Feb. 22.—The selling price of steel rails abroad and for export in the United States was one of the subjects on which David W. Ross, purchasing agent of the Bethlehem Steel Company, was examined today by the Senate Committee on Interstate Commerce. He showed that he had purchased from American mills rails for export upon the isthmus at from \$1.60 to \$2.10 a ton less than the prevailing price to railroads in this country.

Postmasters Confirmed.
WASHINGTON, Feb. 22.—Postmaster confirmation for California, H. L. Tripp, Santa Rosa; C. F. Demsey, Mojave; J. P. Frankhouse, San Fernando.

Bill to Retire G. R. Rogers.
WASHINGTON, Feb. 22.—[Exclusive Dispatch.] Representative Needham has introduced a bill to appoint George R. Rogers second lieutenant on the navy retired list. Rogers was appointed to the Naval Academy by President Taft.

Postmasters in California.
WASHINGTON, Feb. 22.—The President today sent the following nominations to the Senate: Postmasters, California, R. P. Stephenson, Hollister; H. J. Darrington, Oxnard; P. L. Ferguson, Healdsburg.

Railroad Rate Bill.
WASHINGTON, Feb. 22.—The Senate Committee on Interstate Commerce informally discussed the Railroad Rate Bill without taking a concluding vote.

Building for Eureka.
WASHINGTON, Feb. 22.—[Exclusive Dispatch.] Senator Scott today reported from the Public Buildings Committee a bill for a public building at Eureka, Cal., costing, with site, \$175,000.

WEST INDIES AGAIN SHAKEN.
NEW YORK, Feb. 22.—A dispatch to the Herald from Port de France, Martinique, dated Wednesday, says: "An earthquake occurred today at 12 minutes after noon. No great damage was done. Several slight earthquake shocks followed those of February 18 and 17, but without causing any loss of life. People here have now resumed ordinary operations, following the calm of February 19 and 20. Mont Pelée remains quiet. No volcanic activity has been registered at the conservatory during the seismic disturbances."

Freight Traffic Manager Dixon, came to Pittsburgh today in response to a summons from counsel of the Pennsylvania lines. They have been asked to furnish to the legal department of the Pennsylvania Railroad the information in their possession concerning the transportation of oil as far back as any such records have been kept by the railroad. Semiofficially, it is stated tonight that counsel for the Pennsylvania is simply desirous of reinforcement of records and accounts by the statements of men who have seen the completed work of investigation for Washington they took with them all the evidence they had obtained here, and had a courteous farewell to the Pennsylvania officials, but never opened their mouths on the subject of what they had found. Consequently, the Pennsylvania officials have frankly confessed they do not know how any lightning may strike, nor how hard it may hit; but they do propose to help in getting their freight agents to help counsel hurry up a line of defense.

INSURANCE.

(Continued from Second Page.)

entering upon the service, file in the office of the Secretary of State a writing stating the name or names of the officers, together with a brief description of the legislative matter in reference to which the service is to be rendered.

DOCKET OF APPEARANCES.
The Secretary of State should be required to establish a docket of legislative appearances, with appropriate blanks and indices in which the name of counsel and agent may be properly entered. Fees contingent on legislative action should be prohibited. It should also be made the duty of every corporation and association doing business in the State within two months after the adjournment of the Legislature to file with the Secretary of State an itemized statement, duly verified showing in detail all expenses paid or incurred in connection with legislation pending at the last session, including all disbursements or compensation paid or payable to counsel or agents.

"Exception may be made of the duly accredited counsel of municipalities, public boards and public institutions, and of the ordinary professional services in drafting bills or advising clients as to the construction and effect of proposed legislation, where the professional service is not otherwise connected with legislative action. Violation of the law should be punished by the revocation of the statements required should subject the offender to appropriate penalties."

"(4) All other property owned by the company (including all securities), whether or not recognized by the law as proper investments, the date of acquisition from whom acquired, the actual cost, the value at which the same are carried upon the books, the market value, the interest or dividends received thereon, and also the movements of securities and property other than real estate acquired and disposed of during the year, setting forth all such property purchased or sold during the year, with the names of purchasers and sellers, the price paid, the income received and outlays made in connection therewith."

"(5) A statement of all commissions paid to any person in connection with loans, purchases or sales of any property, giving the dates of payment and the name of the payee."

"(6) A statement of all payments for legal expenses, giving dates and names and addresses of the payees."

"(7) A statement of all moneys expended in connection with matters of legislation, giving the dates, the legislative action or proceeding in connection with which the payment was made, the interest of the company therein, the amounts of the payments and the names and addresses of the payees."

"(8) A statement of the officers and directors of the company at the last annual election, giving the names of candidates and the number of votes cast for each, and whether in person by proxy or by mail."

"(9) The statement of all the compensation and emoluments received by any officer or director of the company or by any person whose compensation is more than \$5000 a year, with a statement of the time when and the authority by which the same was fixed."

"(10) All death claims received or compromised during the year, with particulars as to sums insured, sums paid and reasons assigned for resiling or compromising the same in each case."

"(11) A complete statement of the profits and losses upon the business transacted during the year and the sources of such gains or losses, and a statement showing separately the margins upon premiums for the first year of insurance."

"(12) A statement separately showing the amount of the gains of the company for the year attributable to policies written after December 31, 1908."

"(13) A statement showing the rates of annual dividends declared during the year for all plans of insurance and all durations and for all ages at entry, 25, 35, 45 and 55, and the precise method by which such dividends have been calculated."

"(14) A statement showing the rates of dividends declared on deferred policies, giving the dates of declaration and the precise method by which such dividends have been calculated."

"(15) A statement showing any and all amounts set apart or provisionally ascertained or calculated or held awaiting apportionment on policy loans, together with precise statements of the methods of calculation by which the same have been provisionally or otherwise determined."

"(16) A statement of any and all reserve or surplus funds held by the company, and for what purpose they are claimed to be necessary to be held."

THE PENALTIES.
"The violation of any of the provisions of the law should be made a misdemeanor. The provisions of the Penal Code as to perjury should be amended so as to provide that the punishment for the violation of the testimony or the statement set forth in the indictment should be presumptively established by proof that the defendant has made oath to the contrary."

INDUSTRIAL INSTITUTIONS.
"Apart from what has already been suggested, the committee is not prepared to make recommendations with reference to industrial institutions further than to say that the subject is one deserving of special investigation. The most serious evils which have been disclosed by this inquiry, to wit: the excessive premiums, the enormous lapse rate and the hardships of the agents, seem to be inherent in the system. It is insisted that the present method is the most economical that has been proved to be adequate to the exigencies of the business. The alternative seems to be presented either of prohibiting altogether industrial institutions by private corporations, or of permitting the continuation of the present system, subject to the regulations designed to secure economical administration applicable to all companies alike."

TROUBLE ANTI-DYNASTIC.

Revolution Against Manchu Rulers Imminent in China, Says Dr. Ayres.

(BY THE ASSOCIATED PRESS—A.M.)
SAN FRANCISCO, Feb. 22.—Dr. T. W. Ayres, who has been engaged in hospital work in North China for five years past, in connection with the Southern Baptist Mission, arrived from the Orient yesterday. In discussing the situation in China, a subject on which he is well informed, he said:

"All the trouble now breeding in China is directly attributable to a deep-seated and unconquerable antipathy toward the government. The feeling of dissatisfaction is spreading, and to my mind revolution is imminent. 'The anti-foreign feeling is merely one of the expressions of the movement which has for its purpose the unseating of the Manchu dynasty and the establishment of a republican form of government in its stead.'"

"The student class has become a numerous and influential body. It is a matter of interest that a month or so ago 10,000 students returned to China from abroad in the belief that the foreigners are there to grab territory, and the Chinese are to be made money or grab territory."

President Palma of Cuba says he intends to recommend to Congress an increase of the present force of 3000 Rural Guards to 6000.

Enough Material For
but Kept Secret.

"Enough material has been sent to others for need apply."

This is the depressing message of a sad-voiced youth handed to a comrade from the outside office of O. T. Johnson building yesterday. Mr. Call and his confederates in the private history of a dozen prospective commissioners. It was a strenuous session, lasting from early morning until the middle of the afternoon. First the different commissioners proposed names, they discussed with each other, the desk telephones if it was possible passed through this ordeal he was for, and made to exhibit his passion for the locked and barred committee room. The men whose business would make them members of the committee were the men to whom \$500 a month would be paid.

Here is a state that meets with approval of five out of the six commissioners.

A. B. Case, D. K. Edwards, J. D. Stephens, and others.

The one commissioner who holds against it is Mr. Case, and he is too poor to take a place on the Board of Public Works.

offer was a local attorney, who in four years comes out and away with David Hill that "I am a Democrat."

The committee members discussed him a long time. One had heard that place his husband is a member of the Avon Tuna Club and, well, you know it might run in the blood.

SHOCK NO. 1.
But the objectors were finally silenced and two committees were sent to offer him a place on the Board. Right there the committee reconsidered. The committee members don't want the names of the Democrats who are invited in repeated. But he isn't a member of the Board. This attorney told the committee that in his present law practice local people would be able to get a pretty good idea of how he can keep an automobile and his membership in the gun club for a month.

With the help of Assistant City Attorney Goudge, the committee sought for a liberal translation of the charter requirement that "a member shall vote his entire time, etc."

One committee member recalled that Alexander Campbell has reduced his salary inunction to "pray without ceasing" to three set prayers a day. He thought Mr. Goudge was equally liberal in his translation of the charter amendment.

The subject of it was that the attorney consented, half reluctantly, to be offered under advisement until Saturday. This time the committee rather than the candidate was under fire. Mr. Case, with a competent rather than a competent, might get away with a bonus of \$500 will hardly pay the automobile tax.

EDWARDS INVOLVED.
Considerably mystified, D. K. Edwards went to the committee room, where he was invited into it by a fake call from M.C.A. meeting.

He found that he was suspected of carrying about his person some material he had brought to the Board of Public Works. This time the committee rather than the candidate was under fire. Mr. Case, with a competent rather than a competent, might get away with a bonus of \$500 will hardly pay the automobile tax.

Mr. Edwards stayed with the committee a long time. When he came out he looked worried, and said he was going home to think it over. In self-defense the committee turned out four members called in. They ought to be public-spirited enough to make a sacrifice in order to get the department of public works down on its working base.

Mr. Case has received the offer of the place on the Board of Public Works, and from the committee, of which he is a member.

He is grateful for the honor of being mentioned for a high position, said Mr. Case yesterday. "I am not going to take a place on the Board of Public Works."

He has eight children to provide for, and he is not a member of the Board. He is grateful for the honor of being mentioned for a high position, said Mr. Case yesterday. "I am not going to take a place on the Board of Public Works."

THREE NAMES, DO THEY GO?

Case, Edwards, Scott, Board
of Public Works?

Former Says He's Too Poor
to Take Place.

Enough Material Found,
but Kept Secret.

"Enough material has been secured for the Board of Public Works; no more need apply." This is the depressing message that a well-to-do youth handed to all-comers from the outside office of the O. T. Johnson building yesterday. In the Mr. Call and his "confederates" entered into the private history of half a dozen prospective commissioners.

It was a strenuous session, lasting from early morning until the middle of the afternoon. First the different commissioners proposed names. These they discussed with each other, and the final telephone call was sent to the board to exhibit his places in the locked and barred committee-room. The men whose business ability would make them ideal commissioners are the men to whom \$300 a month is being paid to keep the board in session. Here is a list of the six commissioners: R. K. Case, D. K. Edwards, Joseph Scott, and three others who hold out against it. Mr. Case, who says he is too poor to take a place on the Board of Public Works, is the first to receive a definite offer was a local attorney, who once in four years comes out and asserts the David Hill that "I am a Democrat."

The committee discussed him for a long time. One had heard that his wife's husband is a member of the Union Trust Club and, well, you know a shock no. 1. But the objections were finally silenced and two committees were set up to offer him a place on the board. Right there the committee received check No. 1. The attorney in question—Mr. Case—said he would not accept it. He said he would not want the names of the Democrats who were invited in repeated, he is not a member of the Tammany Club—this attorney told the committee that his present law practice looks very good to him, and that he does not know how he can keep an automobile and his membership in the club on \$300 a month.

With the help of Assistant City Attorney Goodale, the committee sought in a liberal translation of the charter amendment that "a member shall devote his entire time, etc." The committee consented, half reluctantly, to hold it over until the committee-room. But he said he hopes the committee will be able to find another lawyer, who is in both Bradstreet's and the Great Register; he says he will go along with the club, but he will hardly pay the automobile.

EDWARDS INVEIGLED. Generally mystified, D. K. Edwards, a member of the committee-room, was inveigled into it by a fake call to a meeting.

It was somewhat taken aback to find he was suspected of carrying on a person, and that he was being invited to the Board of Public Works. His time the committee rather than the candidate was under fire. Mr. Edwards is just retiring from business with a competence, that \$300 a month was about as big a sum as he could do to Scotty when he first blows the mines.

Mr. Edwards stayed with the committee a long time. When he came out he looked worried, and said he was home to think it over. In a self-defense the committee turned to A. B. Case and J. H. Call. The four members of the committee are to be public-spirited enough to make a sacrifice in order to get the department of public works down on a working basis.

Mr. Case has received the offer of the place from the Mayor, from the Council, and from the committee, of which he is a member. I am grateful for the honor of being mentioned for a high position," said Mr. Case yesterday, "but I am not rich enough to take a place on the Board of Public Works."

He has eight children to provide for. The board of public works would require my entire time, and I am a month in his little time, my obligations. I feel that a place on this Board of Public Works is one of the most important positions at the gift of the city, but I am not rich enough to take a place on the Board of Public Works. But other members of the committee are not inclined to take "no" for an answer. They think that Mr. Case can change his present business so as to give him "entire time" to the work. His suggestion is that he should art in at least six months' vacation, and that he is away from the city. Mr. Case and William Mulholland build the new river conduit.

STEPHENS KEPT SHIFTING. W. D. Stephens has been doing some work for the board during the last two days to avoid a place on the board. Stephens says his entire time is occupied just now minding his own business. But it is pretty generally understood that in the committee and with the Mayor and Council, that at least one member of the board shall be a member of the Citizens' Committee.

When the committee was called by the Council to the joint conference to avoid the names of Democratic lawyers, the committee was called by the Council to the joint conference to avoid the names of Democratic lawyers.

SIDE TALKS BY THE OFFICE BOY

Truth seems to be becoming scarcer in New York every year. Why, some of the New York newspapers seem to have withdrawn it from circulation altogether. They read for Florida, Jamaica, Cuba and Bermuda, and hand California some awful papers. Why, I read in the New York papers that our oranges and lemons had been from Cuba. I had a letter from a friend in New York who said that the oranges and lemons were from Cuba. I had a letter from a friend in New York who said that the oranges and lemons were from Cuba. I had a letter from a friend in New York who said that the oranges and lemons were from Cuba.

NIPPER NIPPED.

Bold Highway Robber Captured by
Wife of Man from Whom He Had
Stolen a Diamond

There was an exciting time on a Pasadena car yesterday afternoon when a pair of crooks stole a valuable diamond pin from the wife of a tourist, and one of them was captured by a plucky woman.

The car was crowded as usual and Mr. and Mrs. Joseph Ball of Detroit, were standing on the rear platform coming down from Pasadena. Two men, one tall and one short, came to the platform while the car was yet in the limits of Pasadena, probably having spotted Mr. Ball's diamond in advance, and jostled against Mr. and Mrs. Ball.

The tall man is said to have jabbed his elbow under Ball's chin while the short man deftly nipped the diamond. Mrs. Ball saw the fellow do it and grabbed hold of him, refusing to let go until other passengers came to her rescue and took charge of the thief.

Meantime, he had passed the diamond to the tall man and the latter had slipped from the grasp of Mr. Ball and dropped from the car and disappeared.

The short man, who gave the name of George Davis, was held by the passengers until they spied a patrolman of the East Los Angeles station, when he was turned over to that officer, who brought him to the Central Station. He denied all knowledge of the robbery and would not talk.

Mr. and Mrs. Ball also appeared at the station but absolutely refused to give their address, and didn't really seem much interested about the loss of the jewelry. Officer Copping of Pasadena came over and took Davis back to that city for examination. If passengers on the car can be found who will appear as witnesses in the case.

TWO LITTLE FARCES.

The Young Men's Society of the Cathedral, assisted by a few members of the Ladies' Sodality, presented two one-act farces in Blanchard Hall last night before about 400 people. Following the theatricals, there was dancing and light refreshments.

Bargain-Friday No. 322

Shortened Lines at a Shortened Price---Biggest Values of the Week

The tremendous volume of business in a week's selling here means a vast accumulation of remnants, broken lines and odd lots. In the majority of cases these dwindle from the best and most popular sellers. Remnant lines to us are in many cases just the proper length or size that you require, and when you consider the remarkably low prices at which they are offered, you will realize the importance of these Bargain-Friday sales.

75c GUARANTEED BLACK TAFFETA

Friday 46c the Yard

19-inch black taffeta; lustrous finish; every yard fully guaranteed by the manufacturer; this is a positive 75c quality. Specially priced for Bargain-Friday, aisle 5, the yard, 46c.

CRIME RULES WINDY CITY.

Police Baffled by the Hosts of Darkness.

Church People Asking Light on Hollister Murder.

Unsolved Mysteries Grow in Number Each Day.

(BY THE ASSOCIATED PRESS—P.M.) CHICAGO, Feb. 22.—[Exclusive Dispatch.] Chicago covering before the forces of crime; women afraid to walk in the streets after dusk without an escort; thieves and slugs boldly playing their games in broad daylight; police baffled and beaten repeatedly—this is the picture that haunts the minds of citizens of Chicago.

The murder of Mrs. Beatie Hollister and the belief of her friends that the police have not solved the mystery fully has been the subject of prayer twice a day at the Wesley Methodist Episcopal Church. Rev. John Norris Hall leads the prayer with this appeal: "Give us light on this murder horror. Give us some idea of a clue, so that we can clear up a mystery and see full justice done. Help us."

(CHURCH MEMBERS REPORT.) Members of the church have pledged themselves in writing to work unceasingly by prayer until Easter in hopes of finding a clue that will lead them to learn how the murdered woman passed the time of the afternoon of the day the crime was committed. The pledge signed by the members of the church reads: "For the manifestation of God's power in revealing the whole truth and bringing to justice all implicated in the death of our sister."

"Our combined prayers will be heard," declared Dr. Hall today. "If I have had accomplices, they shall be punished. We shall see the truth."

UNSOLVED MYSTERIES.

The police records of recent months teem with unsolved mysteries of slugging, robbery, burglary and murder. Early today, two masked robbers held up a restaurant in West Bank street, robbed the proprietor, lined up and robbed seven patrons, and escaped after firing several shots. H. H. Melver of Prairie avenue, with office in the Monrook Building, was robbed and slugged, and may lose his eyesight from the beating. John Dony was shot and instantly killed by John Sualanti. Dony interfered to protect Mrs. Sualanti from an attack by her husband.

PLOTTED TO WRECK TRAINS.

STORY ABOUT EX-TEACHER.

(BY DIRECT WIRE TO THE TIMES.) TOLEDO (O.) Feb. 22.—[Exclusive Dispatch.] Mrs. Dora Carpenter, a widow aged 44, a sister of City Solicitor Hoke of Tiffin, was arrested today afternoon for being the plotter of the three attempts to wreck the Pennsylvania train at Tiffin. The story of the work, as first related by Gray Baughman, aged 21, arrested yesterday for complicity, reads like a yellow-back novel.

Mrs. Carpenter, who was formerly a school teacher at Bowling Green, according to the statement of Baughman, had planned to wreck the train wrecked and then, when the job was done, to receive a reward offered, she would turn the wreck over to the police, claiming the reward. Then on the grounds of insanity, the wreckers would be released and the reward money divided between the plotters.

"Last Friday," continues Baughman in his statement, "Mrs. Carpenter, who has been plotting with me for some time, came to me and said: 'Tonight we must wreck the train.' I refused, and then she pointed a pistol at me and said, 'If you don't, I'll shoot.'"

CRIME BRIEFS.

Has Mania for Wrecking Trains.

Tiffin (O.) Feb. 22.—Mrs. Cora Carpenter was arrested today, accused of plotting a Pennsylvania freight train a week ago Wednesday night and attempting to wreck a fast passenger train last night and the night following. Mrs. Carpenter is a member of a prominent family. She is supposed to have a mania for causing and witnessing wrecks.

PERU PROSPEROUS AT PEACE.

Future of Country Centered in United States and Closer Relations Are Hoped for.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, Feb. 22.—Gen. A. A. Caceres, ex-President of Peru, who has just arrived in this city from Lima, spoke enthusiastically last night of the recent industrial growth of the republic, and said: "The future of Peru is centered in closer relations with the United States."

AMERICAN ROAD AGENTS.

REWARD OFFERED FOR THREE.

(BY DIRECT WIRE TO THE TIMES.) EL PASO (Tex.) Feb. 22.—[Exclusive Dispatch.] Gov. Creel of Chihuahua has offered \$500 reward for the apprehension of three Americans who held up a treasure-caravan train near Tempechic, killing the driver, destroying the train and wounding Billy Smith, who was in charge of the train. Smith, it is believed, will die. The Dolores Mining Company is also prosecuting a search.

CONVICTED OF LAND GRABS.

VETERAN BRADFORD'S FINISH.

(BY DIRECT WIRE TO THE TIMES.) NEW ORLEANS (La.) Feb. 22.—[Exclusive Dispatch.] James L. Bradford, a veteran of the fighting against John Brown and the anti-slavery leaders in Kansas, a Confederate veteran connected by ties of blood and marriage with many of the leading families of Louisiana and for years a prominent man in business and society in New Orleans, was today sentenced to one year in the Federal penitentiary for wholesale land frauds against the Federal government. The sentence came after a conviction which was reached some weeks ago on one of many charges. Every legal means has been taken to delay sentence, and little, if anything, has been printed about the case in local papers.

Bradford, who is a picture of a figure, was once State land agent, and in this position came to know intimately the Federal and State lands through Louisiana. He was later public administrator.

OUT FOR FIGHT ON OFFICERS.

Attorney Charges Contempt to Policeman.

Says Client, Former Chicagoan, Was Kidnaped.

Error at Governor's Office Tightens Tangle.

Affidavits charging Detective Grant Roberts of the Los Angeles police force and Detective Kinder of Chicago with contempt of court will be filed today with Police Justice Austin, according to statements given out by Attorney Earl Rogers at 12:15 o'clock this morning.

"Furthermore," said Rogers, "I shall present affidavits to the Police Commission showing the methods adopted by Detective Roberts in his arrest, last night, of John Schumacher. I am out to fight, and fight I will."

John Schumacher, a former Chicago business man, was arrested last night by the two officers named and taken to the Central Police Station, where he was locked up without bail.

A charge of suspicion was placed against him.

Schumacher was scheduled to appear before Police Justice Austin this morning to answer the charge of being a fugitive from justice, and had already retained Attorney Rogers as counsel.

At the time of his arrest Schumacher was enjoying his liberty under \$100 bonds, which was furnished to insure his appearance in court today.

His arrest last night is termed by his counsel as pure trickery, bordering on the grotesque. Rogers declared that no effort will be spared to right the wrong which he avers has been done his client.

AS TO SCHUMACHER.

While resident of Chicago, Schumacher became engaged in a mining proposition, and is said to have been pursued by a number of representatives of various collection agencies of the Windy City for many months previous to his departure for Los Angeles.

He was forced into court, and after appearing before three justices of the peace, was released. Subsequently, a grand jury returned an indictment, charging Schumacher with embezzlement. Despite the fact that the warrant was ready for service on this indictment, Schumacher never returned to Chicago for considerably over a year without being arrested.

He then fled to Los Angeles, and during his residence in this city has been engaged in the manufacture of steel.

It is declared that the collection agencies in Chicago, learning of Schumacher's prosperity here, dispatched Detective Kinder to this city, and the old warrant against him with embezzlement was brought into play.

The first arrest was made several days ago, and the warrant was immediately filed an application for a writ of habeas corpus, and procured his release. Following this, Schumacher's second arrest on a warrant charging him with being a fugitive from justice, was made.

ERROR IN GOVERNOR'S OFFICE.

Ball of \$1500 was furnished to secure Schumacher's liberation, and at that time Rogers had considerable correspondence with Gov. Purdie relative to the matter.

The mistake was quickly rectified, having been in the water but short time, and was sent to her home.

The attention of her two rescuers was attracted by the noise made by the desperate woman in coming in contact with the water and they immediately ran to her assistance. The unfortunate was quickly rescued, having been in the water but short time, and was sent to her home.

RETURNING WITH HADLEY.

Telegraphic information to The Times from San Francisco last night stated that the Chief of Police had returned to the northern city yesterday afternoon with Bert Hadley, wanted here on a charge of forgery, in his custody.

Hadley recently fled from this city. According to the dispatch, the San Francisco authorities know nothing of a case connected with the Wilcox murder case in which Hadley was supposed to be implicated.

Railroad robberies

In this world is no more
of the sleep upon the
rails it.

Africa must pay the
body's for March,
how Italy, revolu-
tionized railways,
or the entire rail-
road.

How poor old
ing with uncom-
is upon a faint
perity, some the
railroads.

to her railroad
has been. In
countries can
be throttled by
railroad.

's "Soldiers of
God."

Going With a Rush!

Our lots are selling fast. You don't get a chance every day to secure improved realty "In the Heart of Hollywood" at the low prices we make. Homeseekers and investors realize this and are taking advantage of the exceptional opportunity.

Hollywood Park Place

THE BLUE RIBBON TRACT OF LOS ANGELES' CHOICEST SUBURB

FREE EXCURSIONS SATURDAY AND SUNDAY

BUT DON'T WAIT. GO ANY DAY, ANY HOUR.

Hollywood Park Tract is in the center of Hollywood, on Cahuenga Avenue, only one block north of the famous residence of Paul de Longpre, and only a block and a half from Prospect Avenue, Hollywood's chief thoroughfare; two blocks from Postoffice and City Hall. New bank now located two blocks south, and numerous stores in Prospect and Cahuenga Avenues.

HOLLYWOOD PARK PLACE will be in full keeping with the spirit of improvement and progress which now animates beautiful Hollywood.

Our improvements are well under way. Streets are being graded. Investigate this splendid profit-making opportunity.

CALL AT OUR CITY OFFICE FOR FREE TICKETS. OFFICE WILL ALSO BE OPEN ALL DAY SUNDAY TO GIVE OUT TICKETS.

Take Hollywood car at Fourth and Broadway. Get off at Cahuenga Ave., where our branch office is located. Carriage in waiting to take you over tract.

MAKE YOUR RESERVATIONS EARLY; THIS IS A BIG TRACT—238 LARGE LOTS—BUT IT IS GOING RAPIDLY. YOU MIGHT LOSE THE PARTICULAR LOTS YOU WANT.

LOTS FROM \$400 TO \$1500

TERMS: One-fourth cash, balance in six, twelve and eighteen months, with interest at 6 per cent. on deferred payments, 5 per cent. discount for cash. An additional 5 per cent. discount to those who will build this season.

The Amazing Career
of Otto Weinger.

Work Has Just Been
Translated Into English.

THE ENGLISH EDITION OF THE
"Encyclopedia Britannica," now in
course of preparation, is to be "set
up" and "machined" in America, has
caused great consternation. While in
the hands of Messrs. A. & C. Black,
the printing of the huge work was al-
ways entrusted to Scotch printing
establishments, most of whom are en-
tered in Edinburgh. The transfer of
the job to the other side of the Atlan-
tic will sever the association of the
Scotch capital with the great work
which has continued unbroken since
its first issue. But in view of the fact
that the American sales greatly ex-
ceeded those made here there is consid-
erable justification for getting all the
printing done in America.

English devotees of Esperanto who
cherish the hope that it is destined to
become the universal language of civil-
ized mankind are greatly elated over
its recognition by the Board of Educa-
tion. The board has promised a grant
to the Esperanto class at Keightley Mu-
nicipal Technical Institute. Mr. Sas-
sur, the general secretary of the British
Esperanto Association, tells me that
similar grants are sure to be made in
the near future to other schools
whose students are eager to master the
polyglot tongue. Thus far the London
County Council has refused to sanc-
tion its introduction in the elementary
schools under its control, but it is ex-
pected that opposition will not long
continue. Esperanto is making great
headway in Japan. One class there,
conducted by a Fellow of the Royal
Geographical Society, has 423 pupils of
whom 350 are Japanese.

HAYDEN CHURCH.

IOWA HOST GATHERS.

Twenty Thousand Former Residents
and Others Celebrate Holiday
With Picnic.

There was an outpouring of former
Iowa residents and visitors yesterday
at the seventh annual picnic at East-
lake Park and from all the beach and
suburban towns they came by the hun-
dred to renew their pledges to their
home State and to the Iowa Associa-
tion of Southern California.

From noon the people were massed
in every part of the park, and esti-
mates of the number ranged from 20-
000 to 25,000. Each of the counties es-
tablished headquarters on the grass,
and by that means Iowans were en-
abled to meet old friends. At a cen-
tral stand papers from the State were
for sale, and badges were to be ob-
tained for a modest nickel.

The delegation from Santa Monica
reached the park with a band of their
own, and as noon approached there
was a rush for the lunch baskets. But
the tables did not suffice for a little of
the visitors, and the vast majority
lunched on the grass.

At half past one the annual election

mother she is as little worthy of ad-
miration as when she sinks to the other
extreme of femininity.

Critics seem to be agreed, however,
that what prevents Weininger's pas-
sionately earnest work from being con-
sidered seriously as a contribution to
our understanding of woman is the
fact, which is made evident on almost
every page, that its author knew noth-
ing of different types of womanhood.

For him there was only one type of
woman—woman. And so this miso-
gist of 21, proceeded with his pitiless,
but futile, analysis, unconscious of the
contrast that exists between the fair
sex as he knew it in one might say,
the "frothiest" capital in Europe, and
the womanhood of France or of Eng-
land, not to mention what would prob-
ably have passed his understanding—
that of the United States.

In the English book printing trade
the announcement made in the Athe-
naeum that the tenth edition of the
"Encyclopedia Britannica," now in
course of preparation, is to be "set
up" and "machined" in America, has
caused great consternation. While in
the hands of Messrs. A. & C. Black,
the printing of the huge work was al-
ways entrusted to Scotch printing
establishments, most of whom are en-
tered in Edinburgh. The transfer of
the job to the other side of the Atlan-
tic will sever the association of the
Scotch capital with the great work
which has continued unbroken since
its first issue. But in view of the fact
that the American sales greatly ex-
ceeded those made here there is consid-
erable justification for getting all the
printing done in America.

English devotees of Esperanto who
cherish the hope that it is destined to
become the universal language of civil-
ized mankind are greatly elated over
its recognition by the Board of Educa-
tion. The board has promised a grant
to the Esperanto class at Keightley Mu-
nicipal Technical Institute. Mr. Sas-
sur, the general secretary of the British
Esperanto Association, tells me that
similar grants are sure to be made in
the near future to other schools
whose students are eager to master the
polyglot tongue. Thus far the London

HAYDEN CHURCH.

IOWA HOST GATHERS.

Twenty Thousand Former Residents
and Others Celebrate Holiday
With Picnic.

There was an outpouring of former
Iowa residents and visitors yesterday
at the seventh annual picnic at East-
lake Park and from all the beach and
suburban towns they came by the hun-
dred to renew their pledges to their
home State and to the Iowa Associa-
tion of Southern California.

From noon the people were massed
in every part of the park, and esti-
mates of the number ranged from 20-
000 to 25,000. Each of the counties es-
tablished headquarters on the grass,
and by that means Iowans were en-
abled to meet old friends. At a cen-
tral stand papers from the State were
for sale, and badges were to be ob-
tained for a modest nickel.

The delegation from Santa Monica
reached the park with a band of their
own, and as noon approached there
was a rush for the lunch baskets. But
the tables did not suffice for a little of
the visitors, and the vast majority
lunched on the grass.

At half past one the annual election

for officers of the association was held
at headquarters. It was a strictly
business meeting, and was called to
order by the retiring president, W. G.
Benedict. The officers elected were:
Torrey Everett, of Pasadena, presi-
dent; Dr. Harmon Cook, Whittier,
vice-president; Dr. E. Henderson, Pa-
mona, treasurer, and C. H. Parsons,
Pasadena, secretary. These officers
also form the executive committee of
the Iowa Association of Southern Cal-
ifornia.

The two hands on the ground played
a selection of patriotic airs, and shortly
after 2 o'clock the auditorium in front
of the band stand filled up with Iowa
veterans of the war with their families.
It was a soldier's reunion and the old
spirit was abroad, for no introductions
were needed as the men chatted in
together and compared notes on the
old time.

Then Maj. Donnell called the old sol-
diers to order and made a spirited little
speech of welcome, and introduced Dr.
Cook who aroused the "vets" to enthu-
siasm by giving exact data regarding
the forty-nine regiments of infantry,
ten regiments of cavalry, and four bat-
teries of artillery that Iowa sent to the
front in the early sixties.

But perhaps the greatest amount of
pleasure was experienced when E. H.
Conger, ex-minister to China and more
recently representing this country at
the City of Mexico, was presented to
the audience, who cheered to the echo
while the ladies present gave the Chau-
taucus salute. Mr. Conger spoke with
brevity but paid tribute to the men of
his native State for their patriotism
and sturdiness of character. He con-
cluded by saying that the women—the
wives, mothers, sisters and sweet-
hearts were as much soldiers as the
men; from them it was the men re-
ceived their inspiration, and he paid
eloquent tribute to their self denial
and devotion.

M. D. Chamberlain followed reading
an original poem written for the oc-
casion, and which in semi-humorous vein
was laudatory of the State of Iowa. Col.
Steadman, past commander of the
G. A. R. of Iowa, closed the reunion by
making a stirring talk to the boys in
blue.

About half past three people began to
make for home. At dusk the crowd
had thinned out, and ere darkness fell
the month annual picnic of Iowans
had successfully been brought to an
end.

For 33 Years

Shiloh's Consumption Cure, the Lung
Tonic, has been before the public, and
this, together with the fact that its sales
have steadily increased year by year, is the
best proof of the merit of

Shiloh

as a cure for Cough, Cold, and all
diseases of the lungs and air passages.
Those who have used Shiloh would not
be without it. Those who have never
used it should know that every bottle is
sold with a positive guarantee that, if it
doesn't cure you, the dealer will refund
what you paid for it. Shiloh

Has Cured

thousands of the most obstinate cases of
Cough, Cold and Lung troubles. Let it
cure you.

"I think your Shiloh's Consumption Cure is the
greatest medicine ever discovered. My baby, who
was nearly two years old, was brought up as
Shiloh, and a faster baby or a healthier one cannot
be found. It is a cure for cold or cough, or
we could, one or two doses always relieve him. I
would not be without a bottle of Shiloh's in my
house for many times the price. I have saved
my many, dear little—Mrs. J. L. Martin,
Hawthorne, Ala."

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Club Lectures.

Under the auspices of the Wednesday Morning Club, W. H. Edwards will lecture in the East Side Congregational Church this evening on "The Grand Canyon by Boat," illustrating his talk with stereoscopic views.

One County in It.

The former Livingston-county (Ill.) people, visitors from there, and their friends, will hold their annual picnic in Eastlake Park a week from tomorrow. This one Illinois county is largely represented in Southern California.

Spanish War Veterans.

Camp Roosevelt, No. 9, United Spanish War Veterans, celebrated the birthday of George Washington at their lodge rooms, No. 2304 South Main street, by giving a smoker to local visiting members. The evening was devoted to patriotic speeches and the telling of experiences of the late war, and was pleasantly spent.

Fell from a Car.

Mrs. C. Buckley, a guest at the Van Nuys Hotel, fell to the street in attempting to leave a car at the corner of Fourth and Spring streets last night and a gas was cut in her head. It was not a serious character, and after being first taken into a drug store Mrs. Buckley was returned to the hotel, where the information was given out that her injury amounted to nothing.

Peoria Frolic.

The Peoria Association of Los Angeles met last night in the organization's rooms in Spring street and made preliminary arrangements for the annual picnic. The outing will be held in Camp Verdugo park about March 15. During the winter the local colony of Peorians has been materially increased and one of the largest turnouts of years is expected.

The Wilcox Case.

Captain of Detectives Flammery will present the evidence in his possession concerning the death of Jesse M. Wilcox to the District Attorney today, and if it is thought sufficient to warrant, a complaint will be made charging the alleged wife with the crime of murder. Chief Auble has gone to San Francisco and there is a suspicion that his visit has something to do with the Wilcox case.

Epworth Convention.

The Epworth League convention of the Los Angeles district met last night at Westlake Methodist Church. This first meeting was in the nature of a reception to the visiting members of the league. Addresses of welcome were delivered by Robert Bowler, Dr. W. H. Rider and Dr. A. W. Addison, to which response was made by Rev. E. W. Paez. There was a good program of music and a general greeting following.

Fine Gold Watch Gone.

J. H. Higson, proprietor of a saddlery emporium, who rooms at No. 274 East Seventh street, is the victim of a snafu which took his fine English solid-gold watch, worth \$175, out of his room. Two months ago Higson's room was burglarized in a similar manner, \$200 worth of silks, gems, jewelry and other articles being taken. In each case the thief seemed to know exactly where to find the property, taking it from bureau drawers, where it had been hidden.

Loyal Legion Banquet.

The Southern California Association, Companions of the Military Order of the Loyal Legion, will give the annual banquet to the Commandery of California at Hotel Maryland, Pasadena, tomorrow evening. Gen. Markham will deliver the address of welcome, and seven toasts will be responded to between 10 and 11:30. Special cars for the companies will leave here at 10:30 Saturday evening over the Pacific Electric's Pasadena short line.

Big Piano Mergers.

A deal has just been consummated whereby the Wiley R. Allen Company has secured a title to the stock and business of the Metropolitan Music Company of this city, and the various branch houses owned by it in other places. This deal will give to the purchasing company a chain of stores reaching from the Canadian line to the Mexican border, and will make it one of the largest piano concerns in the West. S. A. Brown, president of Metropolitan company, will be at the head of the Los Angeles house of the Allen company.

Intercollegiate Debate.

The third annual intercollegiate debate between the University of the Pacific of San Jose and the University of Southern California will be held this evening at 8 o'clock in Simpson Auditorium. The question, "Resolved, that the United States should restrict immigration by an educational qualification, namely that the immigrant be able to read or write any five lines of the American Constitution, either in his native or English language." The northern institution has chosen the side of the affirmative and will be represented by Roy Coy and W. A. Kuykendall. Ernesto Garcia of the College of Liberal Arts and Kemper R. Kampbell of the Law School of the university will represent the negative. Each school has won a contest, so victory in the coming debate is eagerly sought after by both participants. The judges will be Hon. W. A. Harris, John Francis and J. A. Phillips.

BREVITIES.

The San Francisco office of the Los Angeles Times is in room 41, Chronicle Building. Telephone Main 1472. Subscriptions and advertisements taken by mail. Visitors will find copies of the Times on file, and are welcome to call and read them.

British subjects are requested to send their addresses to the undersigned. All British-born persons are earnestly advised to execute wills appointing resident executors. C. White Mortimer, British Vice-Consul, Los Angeles.

Smile, ladies! hat and importer of millinery, is not connected with any other millinery house in this city. Our establishment is located cor. Third and Hill sts.

Henry J. Kramer forms an adult beginners' dancing class Tuesday, March 6. Juvenile class Saturdays. Reference required.

The McClellan-Kanist Co., 111 Winston st., below Main, between 4th and 5th sts., are retiring from business. Beautiful carbon pictures will be sold at manufacturers' prices beginning Monday.

Indian blankets, opals, shells, curios, Field & Cole Co., 218 So. Broadway.

Dr. Logan, post-University of Victoria; eyes tested, 423 S. Broadway.

\$50 round trip, City of Mexico. Register, 207 West Third.

Assaying night school, 215 E. 1st st. Furs, D. Bonoff, furrier, 212 S. E. way.

There are undelivered telegrams at the office of the Postal Telegraph-Cable Company for Adams & Coyne, Dr. Merritt Hill, John Raper, J. R. Connelley, J. Frank Walters, W. W. Tarr, Dr. Rogers, J. Lott and A. G. Muller.

Choice Cut Flowers.

A large variety of floral designs can be secured from W. Wolfstahl, 423 West Second street.

ARBITRATION LECTURE.

Will A. Harris Talks to University Students on the Creeping Age That is Weakening Mars.

By invitation of President Bovard, Hon. Will A. Harris gave an eloquent address before a good-sized audience in University chapel last evening on "International Arbitration." The talk was given in accordance with the recommendation of the Lake Monkon conference that all the universities and colleges of the country hold discussions on this important subject on Washington's birthday.

Said Mr. Harris, in the course of his address: "There is much justice in the observation of the Chinese Ambassador at Washington, 'We shall attend to our own affairs in the future, and we hope the Christian world will permit us to do this. When I see all the other countries uniformed for war, I am inclined to believe that ours is far more peaceable.'

The speaker showed by telling statistics what enormous amounts are expended annually in the maintenance of war, amounts far in excess of the fund devoted to education and the promotion of national enterprise. The annual expenditure for war figures up close to \$450,000,000. The cost of maintaining the navy of Great Britain for one year would provide comfortable and sanitary homes for more than 400,000 of our poverty-stricken people. Since year by year the common man is counting more and more on individual, the careless regard of human life prevalent in former times is passing away and war will become a possibility only on very great provocation. Then the vast energies now devoted to destruction will be turned into the channels of usefulness.

TO EXTEND RECIPROCAL RATES. Germany to Continue in Peace With the United States in Tariff Matters.

BY THE ASSOCIATED PRESS.—P.M.1. BERLIN, Feb. 10.—Chancellor Von Buelow opened the debate in the Reichstag today upon the government proposal to extend reciprocal tariff rates to the United States until June 30, 1937.

The Chancellor said he placed a high value on good political relations between Germany and the United States, which were blessing to both lands; but it would be deceptive to believe that he would buy political friendship by the sacrifice of Germany's economic interests. The grounds of the government's proposal were that a tariff war might be reported to only in case of necessity would damage not only Germany's shipping interests, but other important ones. He explained to the Reichstag that Germany's economic position was not so strong as it had been in the past, and that it was therefore forced, said the Chancellor, "to ask Parliament to consent to this proposal so that we may continue in peace with the United States."

The Reichstag then passed the first and second readings, without amendment, of the government's proposal to extend reciprocal tariff rates to the United States until June 30, 1937.

SCHOOL SHOES

There is no reason why the children's shoes should give you so much trouble. Many factories use up their inferior leathers in children's shoes—so don't blame the children if their shoes wear out quickly—blame the shoes.

Our school shoes come from reliable manufacturers, and give long service. Price no higher.

DENTAL PARLORS

108 N. Spring.

I had five teeth extracted by the People's Dentists without any pain whatever; also had a set of teeth made by them, which fit me perfectly from the first, and I would recommend anybody to go to the People's Dentists for any dental work.

W. B. LUCKENBACH,
714 Edgeware Road.

After being butchered by other dentists, I had a perfect dread of the dental chair. After being operated on by the People's Dentists for crown and bridge work and having several teeth extracted absolutely without pain, I can recommend them to all wishing expert dental work done absolutely without pain.

A. HATCOCK,

NOTICE—We are not represented in the "Times Knowledge Contest"

Requests for samples will be responded to without delay.

Smart Spring Woolens.

Smart buyers of woolens will find in this collection a most satisfying fund of novelties from which to make selections. Foremost among them are the fancy suitings from Austria. These, especially in the lighter grays, white and blacks and tans, are the very highest note on Fashion's keyboard. There's an gentility, of refinement, about them that is particularly appealing. Your shopping tour will not be complete until you have visited this department.

Smart Suitings \$1.00 to \$3.00

Plaid, stripes, hairlines, checks and broken, indistinct, invisible bars. There are soft, pure grays; green, tan or light grays; white grounds with black plaids; stripes and checks in an almost endless variety of novel designs. And besides this, there is a practical side to them that will surely appeal to particular buyers in the way of coloring; it is such that will grow rusty or show the dust. Splendid styles are here from \$1.25, \$1.50, \$1.75, and up to \$3.00 a yard.

Smart Mohairs 50c to \$1.50

Gray, cream will perhaps be most favored this coming season by those who know what's what in Fashion's realm. Mohairs will lead the procession. Our lines are complete to the smallest detail.

Every quality and texture is shown, from the finest weaves of heavy threaded Sicilians; plain or fancy jacquards in dots, squares and dainty figured effects. Where dust-repelling qualities are demanded or hard service, nothing can be better than these brilliant mohairs; 38 to 45 inches wide—\$1.50 a yard.

ANTHERA LINING SILKS, in every asked-for color. Will not run or cut; 19 inches wide—yard, 58c.

FRIDAY MORNING, FEBRUARY 23, 1906.

SPARKLING SPREAD, HAPPY BANQUETERS.

More Than Six Hundred Gathered
at Chamber of Commerce Feast.
Men of Mark Deliver Addresses
Full of Interest.

SIX HUNDRED of the city's best sat down to the Chamber of Commerce annual banquet, in the upper room of Levy's, last night. The affair belonged to the men of Los Angeles, and came from John D. Rockefeller; but forty distinguished guests from other cities were accorded a warm welcome. Bankers and lawyers rubbed elbows in that the Standard Oil magnate has

William Allen White tells of the editors and the fellows who always know better.

with doctors and preachers. Railroad men from far and near, real estate operators, merchants and capitalists, all enjoyed the good cheer. W. J. Washburn was, of course, the guest of honor. His place at the head of the marvelous array of tables was arranged conveniently near the platform. The new president could not be persuaded to make a speech. In spite of much urging he said only a few words. Near him sat Joseph Scott, toastmaster.

The feast began just before 8 o'clock. Every seat was taken. Each guest had the time of his life. At the head of the long tables where sat many good fellows a man's bass voice began. "I do want to go home, babe. I've been drunk for the past six months. I do want to go home."

Voices squeaky and voices low, voices heavy and voices slow, joined in the strange chorus, and staid men failed to realize they were singing a "coon song." Even the clergymen joined the refrain—until the word "drunk" was reached.

THE GLASS OF WATER. When the song was concluded, Francis Murphy arose. His white hair formed a halo of silver around his head. He held high a glass of Los Angeles water and proposed a toast to his favorite beverage. The banquet room responded like lightning. They came to their feet as one man, and each held tightly in his fist a glass of sparkling water.

They drank to Murphy, and then cheered the apostle of temperance, and were not satisfied until they had compelled him to say a few words. Murphy scored a success.

There were men present last night who have not been away from college long enough to forget the songs of Alma Mater. There sang with a will, and he was persuaded as they could. There was no restraint, and every one enjoyed the freedom.

When the merriment was at its height the gavel of the president called the company to attention. Though he pounded with his might, the efforts of Secretary Watkins were needed to call a halt to the flow of gayety and song. Everybody wanted President Washburn to speak. He was persuaded to mount the platform, but when there said but a few words of introduction for the toastmaster of the evening, Joseph Scott. The company gave Scott a Chautauque salute, and handkerchiefs waved a sea of white.

TOASTMASTER WELCOMER. The toastmaster asked the company to arise and drink a toast to George Washington's memory. They did and sang "The Star Spangled Banner."

"I welcome those who have drunk water and those who have not," said Stevens was compelled to stop. He paused and turned in appeal to the toastmaster.

Some one in the room shouted: "Oh, talk about Washington!" The toastmaster arose to the occasion. He pounded loudly with his gavel. He demanded attention. The hall was in an uproar, and blazes grew loud. The toastmaster rapped again: "Gentlemen, we must be courteous, we must allow Mr. Stevens to finish his speech," he said. "I beg of you to give him attention until he concludes."

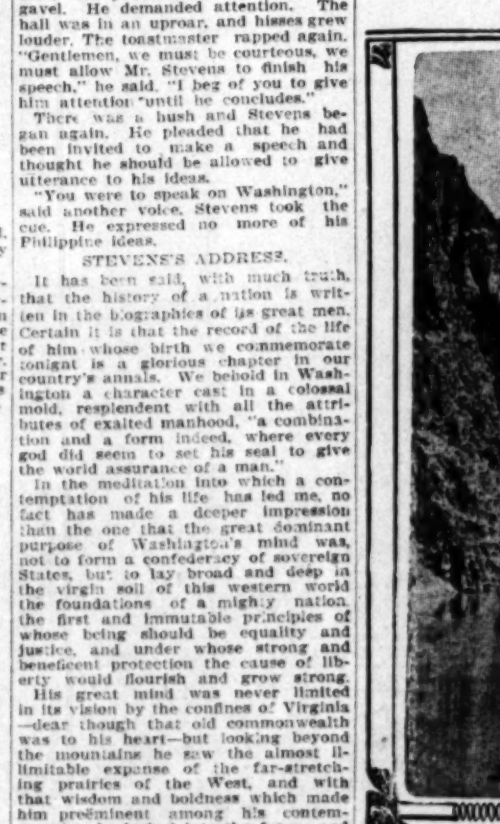

There was a hush and Stevens began again. He pleaded that he had been invited to make a speech and thought he should be allowed to give utterance to his ideas. "You were to speak on Washington," said another voice. Stevens took the cue. He expressed no more of his Philippine ideas.

STEVENS' ADDRESS. It has been said, with much truth, that the history of a nation is written in the biographies of its great men. Certain it is that the record of the life of him whose birth we commemorate tonight is a glorious chapter in our country's annals. We behold in Washington a character cast in a colossal mold, resplendent with all the attributes of exalted manhood, "a combination and a form indeed, where every god did seem to set his seal to give the world assurance of a man."

In the meditation into which a contemplation of his life has led me, no fact has made a deeper impression than the one that the great dominant purpose of Washington's mind was, not to form a confederacy of sovereign States, but to lay broad and deep in the virgin soil of this western world the foundations of a mighty nation; the first and immutable principles of whose being should be equality and justice, and under whose strong and beneficent protection the cause of liberty would flourish and grow strong. His great mind was never limited in vision by the confines of Virginia—dear though that old commonwealth was to his heart—but looking beyond the mountains he saw the almost limitless expanse of the far-stretching prairies of the West, and with that wisdom and foresight which made him preeminent among his contemporaries, he looked into the future and beheld the western march of civilization, and conceived an American empire in all its magnitude and power. Had he been less wise, less bold, less patriotic, in other words, had he not been the great character he was, and the dominant spirit of the time, who shall say how much less glorious would be the heritage of the American people.

Washington was a nationalist in every thought and purpose of his mind, a firm believer in a strong central government—an imperialist, if you please, but one whose conception of American empire embraced not only the seas, but one whose conception of more settled convictions than the one involving our foreign relations. Again and again his mind was turned against entangling alliances with foreign states.

COLORADO'S ENERGY FOR LOS ANGELES.

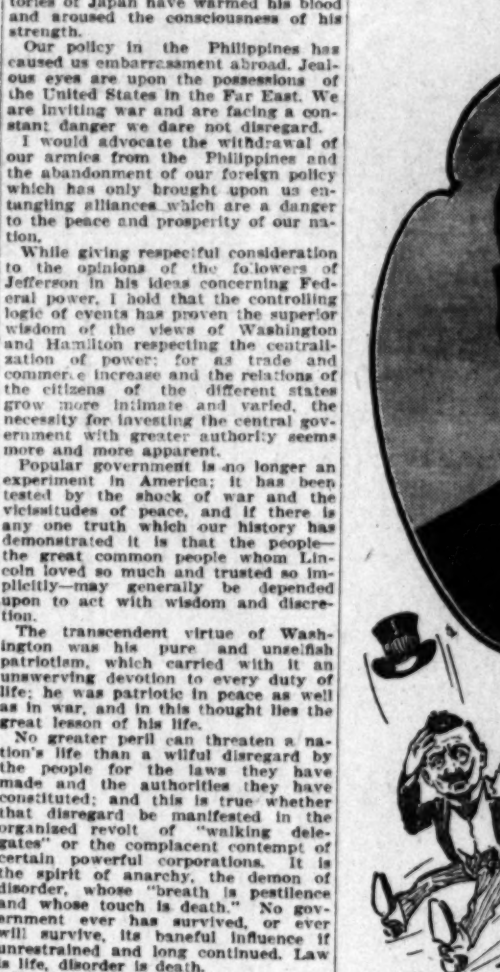

The Black Canyon of the Colorado, where the river is to be dammed.

THE mighty energy of the Colorado River is to be transmitted to Los Angeles, according to plans now being matured by local and Philadelphia capitalists. First, the power is to be distributed among the mining camps on the Arizona and Nevada border, and ultimately brought here.

It is claimed that between the Grand Cañon of the Colorado and the Black Cañon it is possible to take advantage of certain sites and develop 500,000 horse power. After an investigation of other electrically-transmitted power plants in the State, the waters of the Black Cañon were filed upon over a month ago to the extent of 250,000 horse power, by William Carruthers and John Campbell. Plans are now being prepared for a concrete dam, which is to be 200 feet high, and which in some respects is similar in character to the gigantic dam at Assouan, on the Upper Nile, and which is to revolutionize conditions over an immense expanse of territory in the Land of the Pharaohs. At the Black Cañon, however, primarily the idea is to develop electric energy for transmission to distant points. No plans have been made as to the use of the water for irrigation purposes.

The dam is to be constructed at the lower end of the cañon, and with the fall thus obtained it is calculated that 11000 horse power will be developed at the minimum flow. This power is to be transmitted in the first instance to the mining camps on either side of the Colorado River—Searchlight, Bullfrog and Tonopah, on the Nevada side, and Gold Roads and Chloride on the Arizona side being among the most notable. At present the cheapest energy in these camps is distillate, costing from \$200 to \$250 per horse power year, this depending upon the distance from the railroad.

RUN, AND RUN FAST! TIP TO THE "COUNT."

N. P. Bageley (above) and "Count" D'Amelio. The "nobleman" will get hurt if he happens to meet Bageley.

THIS is printed as a warning to "Count" Pasquale d'Amelio. If he meets a man named N. P. Bageley, short of stature, but muscular in build, who owns mines and things in Colorado and lives in St. Louis—RUN, run fast!

Mr. and Mrs. Bageley, the principals in the charge of insulting conduct against the above-named Italian nobleman, packed their baggage and left the Hotel Angelus yesterday morning for their home in St. Louis.

Before going Mr. Bageley said he was not starting on the trail of the creature who insulted his wife, but that if he ever meets him he will consider it a privilege and a pleasure to administer corporal punishment—that is, provided the law does not get its hands on the fellow first.

Worried and chagrined at the turn their pleasure tour to this sunny clime has taken owing to this Italian's actions, the usual two-months' sojourn in Los Angeles which the Bageleys have yearly allowed themselves, was cut short, and they started home.

Mrs. Bageley was unstrung at the publicity attached to the unpleasant incident, but firm in her determination to appear against the man if the local police detective bureau is able to locate him.

If the Italian is in the State he will be located and brought to Los Angeles to stand trial. The Bageleys have arranged that if he should be apprehended they will immediately return and take up the case actively against the man.

Chief Plummer, chief of detectives, said yesterday that as the case is misdemeanor, it will be impossible to return the man back if he is out of the State. Every effort will be made to locate him if he is in California.

OCCIDENTAL BANQUET. The Occidental Club, which occupies the commodious quarters formerly used by the Jonathan Club on South Spring street, celebrated its first anniversary last night with a banquet, at which about seventy-five of its members and friends were guests. The big banquet room and the tables were beautifully decorated and H. H. Keck acted as toastmaster. The evening was a most enjoyable one and a long and varied programme of toasts were on the bill of fare, the responses being made by the following gentlemen: F. A. Alderson, Dr. Sylvester, W. B. Ames, R. O. Bortner, M. Youngman, A. DeVitan, Hugh Russell, Felix Levy, Morris Goldstein, Judge Willie C. P. Stamps, J. Tod Cook, W. J. O'Bannon, W. O. Morison, W. A. Ferris, A. P. Stamps, E. Brenoff, Frank Esposito, M. Carlson and Judge Rose.

Big Crowd Sees Exciting Events Run Without Serious Accident—Reo Wins Honors for Medium Cars and Thomas Takes Free-for-All.

starters and the judges at the finish had synchronized their watches, and at the time of the start was telephoned up. It was then entered on the blanks and when the cars came across the line, the finishing time and the elapsed time were sent down to the start for the benefit of the spectators there. No such error occurred in the timing any place principally because there was a man

The third event was run second, so that some of the drivers who went as scheduled could have time to return to start. The six-cylinder Franklin was the first to start, but the driver had been peering into its inside for an hour, but it came up to start on the second lap. The six-cylinder ran badly occasionally. The White run around got off well, and made roaring time until after the second turn, when it was overtaken by the six-cylinder nearly two minutes with it before he could go on. His time of 7:14 1-5 was good for the day.

The third and fourth events, scheduled as second and fourth, passed without more than a few spectators. The six-cylinder, the Garland, Franklin did not finish, as it had been working badly, and was hopelessly out of the race.

they never saw her before in the arena with a whip and a pistol because it was run twice. It seems that the jockeys broke through the barrier without being started and all the horses ran the distance with the exception of Alonso and Mattie. When the horses broke through the barrier, Starter Hoffman hurried to the judges' stand and gave the information that he had not started the race and that the horses had broken through the barrier. Cordingly Judge Hamilton ordered the race run again, and in speaking of the matter last night quoted the following:

"The horses shall be started with a machine, a flag or both, and there shall be no starting pistol. If the horses do not start when the flag is dropped, the starter has dropped the flag. If no horse starts when the flag is dropped,

Perhaps more interest centered in the last two events than in the others. In the 100-meter dash, the first car made on the poor showing of the Franklin and Winton. They did not start, and the other six cars pulled out of the running. The Winton was started the last of the bunch, and the other five cars were in the lead when car out on the sixth event, E. C. Anthony's Pope-Toledo, which made a splendid start, was the first to get only time during the climb that a car was passed on the run, and it ended the race with the least of the only resemblance to a race.

The last event was the best from a spectacular point of view. The Pope-Toledo that crossed the line first came in a blinding blue cloud of dust, and it came another blue puff. Right after it came another Pope, and then there came a third Pope, and then a fourth sight. It was supposed to be the first Thomas that had started, but when it came it was the second Thomas, and the number of the second Thomas, and then the people knew it had been going to the wrong start.

dog is used there shall be no start until the dog and recall after the starter has released the barrier".

As the horses broke through the barrier, the race was over. The horse called, the race was run over. Judge Hamilton saying he had no discretion in the matter under the rules.

Brighton Beach Handicap.

NEW YORK, Feb. 22.—The Brighton Beach Racing Association today announced that the \$25,000 Brighton Handicap will be run on Saturday, July 14, the fourth day of the summer meeting in the summer under the rules.

Madie Challenge Cup.

LONDON, Feb. 22.—America's challenge for the Madie Challenge Cup in international tennis play will be accepted by the British Lawn Tennis Association by cable today.

Amateur Championship Racquet.

BOSTON, Feb. 22.—Nineteen of the best players in the country will compete for the Amateur Championship Racquet on Saturday.

hard on the leaders, and they finished in five minutes, making a quick succession of flyers that passed the tape.

BILLIARD PLAY.

SIMPKINS DEFEATS JACKSON.

An interested crowd of spectators saw some good playing last night in the three-cushion game between Simpkins and Jackson at Berry's rooms on South Spring street, the former winning by a score of 25 to 17. He finished for forty-seven innings, for an average of over one-half, which is very good for amateur play. The winner made two runs of three while Jackson

San Bernardino and Orange.

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

DEATH MYSTERY OF MILLER.

OFFICERS ARE PUZZLED OVER COLTON DISCOVERY.

Anonymous Letter Directs Sheriff to Look at a Certain Place in the Clothes for Money, but Search Fails to Reveal It—Well-capping Demonstration.

SANTA ANA, Feb. 22.—Mystery shrouds the death of Louis Miller, the German who was found dead in a box car near the Armour fertilizer works at Colton the early part of the week. Whether the man's name is Miller or Ehler, may probably never be known. The latest development in the strange case is a letter received this morning by Sheriff J. C. Ralph from Upland, stating that the unfortunate worked about Upland for about a year, and that in a small pocket of the dead man's coat two money orders for \$75 should be found.

The letter is anonymous. It directs the Sheriff to look in the pocket under the label of the dead man's coat, and the money would be found. Deputy Sheriff Charles Ward made a thorough investigation of the clothing, but brought nothing to light. Who the author of the letter is, is now the aim of the Sheriff's discovery. There is a feeling that some dark secret involves the death of the unfortunate German, which may be cleared up if the author of the letter is found.

WELL-CAPPING DEMONSTRATION.
The capping of the new city well on the Antill tract east of town has produced additional evidence in support of the contention of the attorneys for the San Bernardino Water Protective Association in their fight to restrain foreign water companies from draining this valley of its artesian water.

The theory in sinking this deep well was that it would penetrate below the water-bearing strata supplying other artesian wells in the valley, and thus have an exclusive supply, unaffected by other wells, and not affecting the other.

Attorneys for the Water Protective Association have clung to a different theory, maintaining that there is no separate water supply, but by means of fissures and gravel formations the artesian basin to its greatest depth is supplied from one common source.

The demonstration of this theory was in the capping of the big well, which is 106 feet deep, and not cut in where a depth of 700 feet. One well over a mile from the deep well rose thirteen inches within twelve hours after the Antill well had been capped, and in all other wells a marked rise in the water level was noticeable.

VALLEY PIONEER DIES.
Matthew B. Cantwell, a pioneer of this valley, died of heart failure yesterday at his home at the corner of Ninth and streets, after an illness of two weeks. He had been a resident of this valley for forty years, being engaged all that time in agricultural pursuits. He leaves a widow and six children, Mrs. Mary, William, Reader, Mrs. Clara Phillips and Alfred Cantwell, all of Los Angeles; William Cantwell of West Hollywood; and Mrs. Bessie Cantwell, Mrs. Laura Murr, both of this city.

WORK OF BUILDERS.
Miss Florence Hedges has bought of M. C. McKinney a lot on the north side of Fifth street between C and D, 56x121 feet, consideration \$1250. The purchaser intends to build at once. This lot is one of the few remaining vacant residence lots close to the downtown section. Another vacant residence property affects the ownership of a lot 120x200 feet on the north side of Base line between C and D, which has been bought by City Engineer Brown, who will commence at once the construction of a bungalow.

COMPLETE INCLINE ROADBED.
The roadbed for the incline railway to be built from the mouth of Waterman Canyon to the top of the Skyland bluff, on the San Bernardino Mountains, has been completed, and for days have been going through town with this for the proposed railway, which is to be mainly used for hauling materials for the Arrowhead Hotel. The line is not less than fifteen feet in length, necessarily this long, as the railway will consist of three rails, increased to four at the meeting place.

REDLANDS.
PASSED BAD CHECKS.
REDLANDS, Feb. 22.—A man who signed his name as H. G. Moffatt in a gold, business-like and succeeded in separating local merchants from merchandise and money to the extent of \$1000.

This he did by means of checks on the Redlands National Bank, which were signed "Guaranty Water Company" with a rubber stamp, and the "by" was filled in with the name H. G. Moffatt. The checks were enough to present the checks until just before closing time Saturday, when they were in sums of \$10, \$12 and \$15. The checks were returned stamped "no account."

All the checks were drawn in favor of J. G. Beasley and all were numbered with a numbering machine. The indorsement looked like the writing of a professional business-like. The victimized merchants were William Michaels, who gave \$50; a check; W. G. Truselew, who let go \$120 check and \$5 in coin for the \$12 check; and H. S. Stephens, who got \$20 check for a \$14 watch and the balance in money.

OTHER HAPPENINGS.
Constable Rivera today removed the worth of \$1000 from the pocket of a man named Raymon to cover a claim alleged to be due L. D. Houghton of San Bernardino.

Rev. Maxine Savage, pastor of the Unitarian Church of this city, is expecting a visit from his father, Rev. John J. Savage, one of the most prominent Unitarian ministers in America. Rev. Mr. Savage will arrive here about March 1.

The monthly meeting of the Redlands Medical Society was held last evening, with Dr. G. G. Moseley as guest. Dr. A. J. Shreck read a paper on pneumonia and Dr. T. M. Blythe read a paper on the treatment of the disease, and a discussion followed. The next meeting will be held March 21.

SANTA ANA.
ELKS RECEIVE BROTHERS.
SANTA ANA, Feb. 22.—San Diego Elks to the number of seventy-five, accompanied by their wives and women friends, arrived here at noon today, and were escorted to the Elks' Hall for the local order. A banquet was

HAPPY BANQUETTERS.

(Continued from Sixth Page.)

Chamber of Commerce banquet, sent an interesting communication which shows the rapid growth of Los Angeles city.

"Los Angeles is one of the most prosperous cities in the United States," he says, "and is the only one of over 100,000 population where the growth is concentrated in the city proper, since 1890 that the census method of estimating population for the purpose of obtaining death rates, has been definitely abandoned by the Census Bureau."

In 1890, the population was 1,130; in 1895, 1,135; in 1900, 102,478; and in 1905, the population is estimated at 220,000, or an increase in five years of 114.7 per cent.

The census of manufactures of 1905 covers the calendar year 1904, and was taken in conformity with an act of Congress. It is confined to the manufacturing establishments with an annual product of \$500 or over, thus excluding the neighborhood industries and hand trades, such as the building trades, dressmaking, tailoring, millinery, cobbling, blacksmithing, etc. Including these industries, there were reported in the Twelfth Census, 1900, 730,000 establishments in Los Angeles.

The statistics for the neighborhood industries reported in 1900 are excluded from the following table, thus reducing the total to the establishments in 1900, the statistics for which are comparable with those for the census of 1905. The figures show that there has been a large increase in the manufacturing industries of the city.

The statement was as follows:

Item	1900	1905	P. Cent.
Number of establishments	813	332	32.4
Capital invested	\$28,173,349	\$48,562,174	71.4
Salaries paid	2,914	730	175.5
Number of employees	1,911,841	62,560	331.4
Value of products	10,415	3,229	99.2
Cost of materials	1,931,838	1,027,674	46.4
Cost of fuel and power	1,000,000	1,000,000	100.0
Value of products	1,000,000	1,000,000	100.0
Value of products	1,000,000	1,000,000	100.0

REGRETS FROM MANY.
Telegrams and letters expressing regret at inability to attend banquet were received from the President and Vice-President of the United States, and also from the following:

Hon. Leslie M. Shaw, Secretary of the Treasury; Hon. Ethan Allen Hitchcock, Secretary of the Interior; Hon. Charles J. Bonaparte, Secretary of the Navy; Hon. James Wilson, Secretary of Agriculture; Hon. George B. Cortelyou, Postmaster-General; Hon. Victor B. Schinnerer, Secretary of Commerce and Labor; Hon. William H. Moody, Attorney-General; Hon. THE STANDARD BUILDS SHIPS.
The Standard Oil Company constructs own vessels at Richmond.

THE STANDARD OIL COMPANY CONSTRUCTS OWN VESSELS AT RICHMOND.
The Standard Oil Company has completed the building of steel tank ships at its big refinery at Point Richmond, where it has just turned out a new ship with a capacity of 90,000 barrels and over 2000 barrels which will be used for carrying oil to points on the coast and inland waters around San Francisco. The establishment of this new shipyard indicates that the Standard Oil Company is building up this Coast for the purpose of chartering them or building them around Cape Horn. The company is growing trade have been the great monopoly to have been added to its list of oil and is now likely in the near future.

DRILLERS AT KERN RIVER.
The action of the Espee in starting a new well at the Kern River, on the northeastern part of the Kern River, tends to confirm the belief that the railroad is doing extensive drilling in the near future. At present it is practically no production in fact it has never been expected since the days of the boom and the methods were not as perfected as they are today. If the well is successful, it will be a great asset to the Espee, as there is no other well in the area. The well is being drilled very deep, and it is expected that it will reach the oil reservoir in the near future. The Espee is being drilled very deep, and it is expected that it will reach the oil reservoir in the near future. The Espee is being drilled very deep, and it is expected that it will reach the oil reservoir in the near future.

DRILLERS FOR MEXICO.
There has been quite a demand for the drillers and tool dressers for Mexico. Men have been sent to California both to the Mexican Standard Oil Company's properties at the State of Tabasco where oil is being made on a good scale. The Standard Oil Company is very active in this work. The Standard Oil Company is very active in this work. The Standard Oil Company is very active in this work.

MINES AND MINING.
DEPOSITS OF MONTEREY.
The quality of Bituminous coal discovered and believed to be extensive body—it may be a problem for use where it is available.

ANGELENS IN TONOPAH.
The Tonopah Wall Street Mining Company, composed of residents of Los Angeles, has determined upon sinking a 1000 foot shaft on its claims at Tonopah, adjoining the McKee, formerly known as the Pittsburgh Tonopah property. There are fifty acres in the tract owned by the Wall Street, as yet but very little developed, but so situated as to be directly in line with big producers. A working shaft will be sunk to the level of the porphyry and crosscut at proper depths north and south. From the results obtained in neighboring properties it is expected that values will be encountered at about 140 feet as was the case in the adjoining property, the West Tonopah. There are five fractional claims in the group. A steam hoist is to be put up at once.

IRONWORKER'S DEATH.
Breaking Timber Strikes Him and Causes Him to Fall to Bottom of Elevator Shaft.
J. M. Jones, a structural-iron worker in the employ of the Baker Iron Works, fell to his death yesterday in the partially completed block of the Pacific Development Company, at the corner of Sixth and Spring streets. The accident that caused Jones to fall was a peculiar one. A carpenter named Fisher was walking across some 2x4 timbers on the seventh floor of the building while Jones sat on the edge of an elevator shaft, just below Fisher, working about some of the iron girders. A piece of lumber broke under the weight of Fisher, and falling to the floor below struck Jones with sufficient force to cause him to lose his balance and fall down the shaft, fracturing his skull and breaking many bones in his body.

MILL FOR SHOSHONE.
The purchase of the Shoshone-Shoshone at Bullfrog by Charles Schwab is to be followed by the erection of a 150 stamp mill. This means a great increase in the working force and the pushing of operations. F. A. Broadway and W. A. Moore have leased the Ramrod property, formerly owned by Francis Schuchman, in El Dorado Canyon. There is considerable work completed and a ten stamp mill on the claims.

JOHANNESBURG SHOWS WELL.
The old Pimmore mine at Johannesburg, now owned by the Goldfield Mining and Brokerage Company, that made a big few years ago, is showing up better than ever since the new management took hold and started the mill running some two weeks ago. Since work was started on December 15 several thousand tons of rich ore have been blocked out. The old workings did not go deeper than 200 feet. The new management is pressing deeper and the last fifty feet the richest ore discovered in the mine has been opened up. It is running from \$40 to \$114.50 a ton. The deeper the work the better the ore and the larger the body becomes. No one can foretell the extent to which this wonderfully rich ore may open.

GOVERNMENT BUYS CANAL.
JOY IN PHOENIX OVER TIDINGS FROM WASHINGTON.
Appraised Valuation Was Over Three Hundred Thousand Dollars, but Bondholders Made Concessions—Government Will Proceed at Once to Construct Dam.

SMALLPOX FROM BARSTOW?
Another case of contagious disease from California has appeared at Phoenix, where a stranger has just been sent to the pest house suffering from smallpox. The man had just arrived from Barstow, Cal., and must have been a bad state when he started. He is the only occupant of the pest house, and his care, guarding and medical attention included, are costing the city about \$20 a day. Naturally there is some dissatisfaction.

NOTORIOUS "SCOTTY" AGAIN.
"Scotty," his brother, and several companions have been looking into the mineral wealth that lies near Hillside station on the Santa Fe, Prescott and Phoenix Railroad, about ninety miles north of Phoenix. The party took a special train down from Ash Fork, where they left the main line. Nothing was told of the purpose of the trip, other than that there was a possibility of the purchase of several mining claims. The visit to the claims was brief, however.

ARIZONA BREVITIES.
Friday night, near Globe, W. St. Henry proved himself a rare marksman by shooting through the closed door of a miner's cabin and putting a bullet through the head of his roommate, Jerry O'Connor, who was returning home intoxicated. Henry was held for murder. F. R. Lewis, a prospector, committed suicide Wednesday near Globe by shooting himself through the head, using a rifle. He was suffering from remorse, having been "grub-staked"

RELOCATE LOST MINE.
Business men and merchants of Pima county, Arizona, have applied to back Mark Lull, an old-time miner and prospector, in an effort to relocate a lost mine known as the "Lost Mine" in the Salero Mountains. They are prospecting when a courier from the Apache, as they were known to Tucson, Detweiler separated from a companion a few minutes ago, and reported having been shot by a band of desperadoes and a number of silver-colored work clothes. Detweiler died, and Lull, who was a partner in the mine, was found himself well fixed and went
